"We can't help everyone, but everyone can help someone."

~Ronald Reagan

Well we have survived our first month of "social distancing". COVID-19 seems to have taken over our lives, so many things in our community have been cancelled or postponed. This has been a hard time for so many of us. The students of our community have probably felt it more than most. Our high school and college students went away for Spring break and never returned to complete their senior year. They recently received word that school is out for the remainder of the year. So many students are mourning the

loss of their last days of high school and their expectations of what these days should be. The City would like to extend our congratulations to you on completing your senior year. We are proud of all of you. Keep your heads held high, I know you can't see it now, but this truly is just one part of your very long journey in life.

As so many of us are feeling the loss of something or someone in these strange times, please take the time to check in on each other mentally. Mental health is being affected by this virus and "social distancing". Please make sure to take time to find someway to do self-care or help care for another.

We at the City do understand that people and some of our own residents have been affected by this financially. There are so many resources at the local, county, state, and federal level. If you are in need of help, we want to help. That is what is great about being in a small community. This is our time to shine. Please call us if there is anything we can help with. We can get you in touch with the right people to help.

On the bright side, the weather is getting nicer, so we can get out of our homes and enjoy the warm sun! Get started on some new projects or finish up some longer over due ones.

Dee Wagaman

Your response matters!

You can still respond. April 1 is a reference date, not a deadline to respond. When you respond online, by phone, or by mail, count everyone living in your home as of April 1.

Health Clinics. Fire departments. Schools. Even roads and highways. The census can shape many different aspects of your community.

- Your response will help determine how billions of dollars in federal funding flow into states and communities each year.
- The results determine how many seats in Congress each state gets.
- It's mandated by the U.S. Constitution in Article 1, Section 2: The U.S. has counted its population every 10 years since 1790.

You can respond online at my2020census.gov, by phone at 1-844-330-2020, or by mail by returning the Census questionnaire that was mailed out in April.

Please help your community by being counted.

Springville Area Neighborhood Service & Information (SANSI)

SANSI is a great resource for anyone in our community that needs assistance. The pantry is fully stocked with food items and toiletries. They are also a great resource to help with water, electric, and heat bills. They can also provide gas to help to get to appointments or to work. The SANSI Agency board members are from the congregation of the Springville Churches and their pastors. This is a local organization to help our local citizens. Janet Lentz is the coordinator. She is working much different hours with this social distancing. Please call her at 854-6100. She is checking the answering machine daily and will make arrangements to get you any assistance you may need. If you have any questions or problems arise, please do not hesitate to contact or office at 854-6428. We are all working together.

REMINDER:

Please do not put grass clippings in the street. This can clog the storm sewer. It also makes the streets dangerous for bicyclists, mopeds, and motorcycles. Thank you for your cooperation.

4th Annual Fishing Derby

Mark your calendars

SAVE THE DATE

Springville Fun Days
August 7-8, 2020

It's golf cart season again in Springville! Be sure to keep your eyes open for golf carts around town. Golf carts are energy efficient, cheaper to buy and maintain than regular cars, and a whole bunch of fun to drive. Springville licenses the use of golf carts, UTVs, and ATVs on city streets. These vehicles must have a slow moving vehicle sign and a safety flag at least 5 feet high. To get or renew your license, stop by City Hall or give us a call at 854-6428.

*****Please keep your children properly restrained for their safety and the safety of others.*****

Springville High School Alumni Banquet June 6, 2020

Cancelled due to the Coronavirus. The graduating classes that were to be honored at this year's banquet, 1940, 1950, 1960, 1970, 1980, 1990, 1995, will be honored next year at the banquet on Sat. June 5, 2021. Please help spread the word about this cancellation.

The City has taken many complaints about dog owners not picking up after their pets. Nobody likes to walk around town and have to avoid dog poop. Please be considerate of your

neighbor's property and the public property. We love to see all the dogs out walking, but not their remains.

Springville City Wide Sales

POSTPONED

SPRINGVILLE WATER QUALITY REPORT—2019

Introduction: In compliance with the Safe Drinking Water Act Amendments, The City of Springville's water system is providing its customers with the annual water quality report. This report explains where your water comes from, what it contains, and how it compares to standards set by regulatory agencies. **For more information about your drinking water, please contact Todd Wyman, Public Works Director, at 319-854-6428.**

Does my drinking water meet EPA standards? Yes, our water meets all of EPA's standards. We sample for over 80 contaminants that may be in drinking water. As you will see in the table contained in this report, we found all contaminants met the EPA guidelines at all times.

What is the source of my water? Your water comes from two municipal wells. One well is 473 feet and the other is 390 feet into an underground source of water called the Silurian Dolomite Formation. These wells are located at the water tower and at the east end of the football field. The town owns the land where the wells are located and restricts any activity that could pollute them to ensure the safety of our water. The State has completed a source water protection evaluation. The Springville water supply obtains its water from the Silurian aquifer. The Silurian aquifer was determined to be highly susceptible to contamination because the characteristics of the aquifer and overlying materials allow contaminants to move through the aquifer quickly. The Springville wells will be most susceptible to activities such as leaking underground storage tanks, pesticide manufacturers, and air release permitted sites. A detailed evaluation of your source water was completed by the Iowa Department of Natural Resources, and is available from the City of Springville at the city clerk's office at 304 Broadway, 7:30 to noon and 1 to 4:00 p.m., M-F, 319-854-6428.

How can I get involved? Our City Council meets on the first and third Mondays of each month at 6:00 p.m. in City Hall at 304 Broadway, Springville. Please feel free to participate in these meetings.

Is our water system meeting other rules that govern our operations? In order to ensure that tap water is safe to drink, EPA prescribes regulations, which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which must provide the same protection for public health. The State and EPA require us to test our water on a regular basis to ensure its safety.

Do I need to take special precautions? Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Why are there contaminants in my water? Drinking water, including bottled water, may be reasonably expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The City of Springville is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested.

Information on lead in drinking water, testing methods and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- *Microbial contaminants*, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agriculture livestock operations and wildlife.
- *Inorganic contaminants*, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- *Pesticides and herbicides*, which may come from a variety of sources such as agriculture, storm water runoff, and residential uses.
- *Organic chemical contaminants*, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
- *Radioactive contaminants*, which can be naturally occurring or be the result of oil and gas production and mining

activities.

Health Affects of Lead in Your Drinking Water: If present, elevated levels of lead can cause serious health problem especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Springville is responsible for providing high quality drinking water, but cannot control the variety of materials used plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or <http://www.epa.gov/safewater/lead>.

Other Information: Our water system is currently working with the community to increase awareness of proper waste disposal practices, to further protect the source of our drinking water. We are also working with other agencies and local watershed groups to educate the community on ways to keep the water safe.

Water Quality Data Table: The water quality data table on the next page lists all the contaminants that were detected during monitoring for the 2019 calendar year. The presence of these contaminants in the water does not necessarily indicate that the water poses a health risk. Most of the data presented in this table is from testing done between August of 2012 to December 31, 2019. The State requires us to monitor for contaminants less than once per year because the concentrations of these contaminants are not expected to vary significantly from year to year. Definitions of the terms used in the table and explanations of the abbreviations are as follows:

Definitions:

- **MRDLG:** The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
- **MCLG:** Maximum Contaminant Level Goal, or the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- **MRDL:** The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants. MRDLs are set for chloramines, chlorine, chlorine dioxide.
- **MCL:** Maximum Contaminant Level, or the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
- **AL:** Action Level, or the concentration of a contaminant which, when exceeded, triggers treatment or other requirements which a water system must follow.

Abbreviations:

- ppb: parts per billion or micrograms per liter
- ppm: parts per million or milligrams per liter
- pCi/l: picoCurie parts per liter
- N/a: not applicable
- TT: treatment technique
- MRDLG: maximum residual disinfectant level goal
- MRDL: maximum residual disinfectant level
- N/d: not detectable at testing limits.

Table of Contents:

- Regulated contaminants detected must be included
- Contaminant name
- MCLG
- MCL
- Level of detection & if applicable range
- Likely source of contaminant
- Indicate any violation of MCL, MRDL, TT, or AL

2019 WATER QUALITY REPORT FOR SPRINGVILLE WATER SUPPLY

This report contains important information regarding the water quality in our water system. The source of our water is groundwater. Our water quality testing shows the following results:

CONTAMINANT	MCL - (MCLG)	Compliance		Date	Violation	Source
		Type	Value & (Range)			
Total Trihalomethanes (ppb) [TTHM]	80 (N/A)	LRAA	13.00 (10-10)	09/30/2019	No	By-products of drinking water chlorination
Total Haloacetic Acids (ppb) (HAA5)	60 (N/A)	LRAA	9.00 (9-9)	09/30/2019	No	By-products of drinking water disinfection
Copper (ppm)	AL=1.3 (1.3)	90th	0.135 (0.0080-0.204))	2018	No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
Lead (ppb)	AL=15 (0)	90th	1.30 (ND-2)	2018	No	Corrosion of household plumbing systems; erosion of natural deposits
950 - DISTRIBUTION SYSTEM						
Chlorine (ppm)	MRDL=4.0 (MRDLG=4.0)	RAA	0.9(0.36-2.2)	12/31/2019	No	Water additive used to control microbes
01 - FINISHED WATER SAMPLE TAP, #2						
Nitrate	10 (10)	SGL	2.000	2016	No	Run off from fertilizer use; Leaching from septic tanks, sewage; erosion of natural deposits
Combined Radium (pCi/L)	5 (0)	SGL	0.61	05/23/2012	No	Erosion of natural deposits
Arsenic (ppb)	10 (0)	SGL	2.20	04/08/2013	No	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronic production wastes
Fluoride (ppm)	4 (4)	SGL	0.3	04/08/2013	No	Water additive which promotes strong teeth; Erosion of natural deposits; Discharge from fertilizer and aluminum factories
Barium (ppm)	2 (2)	SGL	0.255	04/08/2013	No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
Sodium (ppm)	N/A (N/A)	SGL	7.3	02/13/2018	No	Erosion of natural deposits; Added to water during treatment process
Di (2-ethylhexyl)phthalate	6 (0)	SGL	1.00	08/07/201	No	Discharge from rubber and chemi-
02 - FINISHED WATER SAMPLE TAP, #3						
Combined Radium (pCi/L)	5 (0)	SGL	1.3	01/09/2018	No	Erosion of natural deposits
Arsenic (ppb)	10 (0)	SGL	1.40	08/05/2013	No	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronic production wastes
Fluoride (ppm)	4 (4)	SGL	0.3	08/05/2013	No	Water additive which promotes strong teeth; Erosion of natural deposits; Discharge from fertilizer and aluminum factories
Barium (ppm)	2 (2)	SGL	0.269	08/05/2013	No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
Sodium (ppm)	N/A (N/A)	SGL	5.6	02/13/2018	No	Erosion of natural deposits; Added to water during treatment process
Atrazine (ppb)	3 (3)	SGL	0.15	05/23/2012	No	Runoff from herbicide used on row crops
Gross Alpa, inc (pCi/L)	15 (0)	SGL	3.8	03/19/2019	No	Erosion of natural deposits
Combined Radium (pCi/L)	5 (0)	SGL	1.3	01/09/2018	No	Erosion of natural deposits

Note: Contaminants with dates indicate results from the most recent testing done in accordance with regulations.

LIBRARY UPDATE:

As of this writing the library is still closed and we don't know when we will open again, that decision is not ours to make. We still are making curbside pick-up available on Saturdays, to help you select books go to our catalog <https://springville.biblionix.com/catalog/> and then call the library and leave a message with the books you want and we will get back to you. No internet, call the library and leave a message with the author or type of books you want. Our webpage has a list of online sources that might be helpful with the kids at home <https://www.springville.lib.ia.us/>, check it out. We have been having issues with Overdrive (the ebook download), this is out of our control, this comes from the state library, so please be patient.

We hope to see everyone soon, in the meantime stay safe.

CITY NEWS BRIEFS

- Save the date: STPA Fun Days August 7-8, 2020.
- Sign up to have your Springville water utility bill automatically withdrawn from your checking account. Don't pay another late fee. It is easy to sign up and free.
- Register your golf cart at City Hall.
- Call Iowa One Call at 811 before you dig.
- Reminder of City Hall Hours; 7:30AM-12PM, 12:30PM-4PM, Monday-Friday.

Regular Council Meeting

April 6, 2020

The Springville City Council met in regular session April 6, 2020. In order to help stop the spread of the COVID-19 virus, this meeting of the Springville City Council was held electronically. Chapter 21.8 of the Iowa Code does permit an electronic meeting where all members participate remotely when an in-person meeting is impossible or impractical, which is certainly true during this crisis. On March 19, 2020, Governor Reynolds issued a Proclamation of Disaster Emergency, which included a suspension of Iowa laws that would prevent the use of electronic meetings or the limitation on the number of people present at an in-person meeting site. The agenda had this message posted more than 24 hours in advance to give instructions on how others could participate in the meeting: *Due to the COVID-19 crisis, the City of Springville will be holding this City Council meeting electronically via a conference call. If you would like to participate in the meeting, please call (425)-436-6369 and enter this access code: 331423. Only City staff are allowed in City hall.*

Mayor Shebetka called the meeting to order at 6:00 p.m. Council members present: Brad Merritt, Bart Barner, Jeff Grimley, Lyle Andersen, and Karla Blakely. City staff present: City Clerk/Treasurer Dee Wagaman. Guests present: Jeremy Ketelsen.

Andersen made a motion to approve the agenda, second from Grimley. All ayes. Motion carried.

Andersen made a motion to approve the following consent agenda items: Approval of March 16, 2020 minutes, March 20, 2020, March 30, 2020, Approval of bills, and Approval of Liquor License for Woody's One Stop, second from Merritt. All ayes. Motion carried.

Mayor Shebetka invited citizens with input to speak. There being no comments from citizens, Mayor Shebetka moved to business.

Mayor Shebetka opened the public hearing to consider amending Chapter 16 of the Springville Code of Ordinances pertaining to Mayor Pro Tem term at 6:03 p.m. No comments in favor or against the proposed changes. Merritt made a motion to close the public hearing at 6:04 p.m., second from Andersen. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None. Motion carried. Andersen presented first reading of Ordinance 1-2020, an Ordinance to amend Chapter 16 of the Springville Code of Ordinances, second from Barner. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None. Merritt made a motion to waive the second and third readings of Ordinance 1-2020, second from Andersen. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None. Andersen made a motion to adopt Ordinance 1-2020, second from Barner. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None. **ORDINANCE 1-2020 adopted.**

Mayor Shebetka opened the public hearing to consider amending Chapter 22 of the Springville Code of Ordinances pertaining to Planning & Zoning terms at 6:06 p.m. No comments in favor or against the proposed changes. Grimley made a motion to close the public hearing at 6:07 p.m., second from Blakely. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None. Motion carried. Discussion held on contacting the current board. Andersen presented first reading of Ordinance 2-2020, an Ordinance to amend Chapter 22 of the Springville Code of Ordinances, second from Blakely. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None.

Mayor Shebetka opened the public hearing to consider amending Chapter 35 of the Springville Code of Ordinances pertaining to term for Fire Chief at 6:17 p.m. No comments in favor of the change. Ketelsen spoke against the changing of the 2-year term. He would like it to remain 3-years. Explained it takes time for a chief to build trust and a team, the extra time would allow this to happen. Clerk received emails from PJ Hoyt, Kevin Hulett, and Jeremy Ketelsen. These all presented to council. Merritt made a motion to close the public hearing at 6:28 p.m., second from Blakely. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None. Motion carried. Discussion held in favor and against the 2-year term. Andersen presented first reading of Ordinance 3-2020, an Ordinance to amend Chapter 35 of the Springville Code of Ordinances, second from Merritt. RCV: AYES: Merritt and Andersen. NAYS: Grimley, Barner, and Blakely. Motion failed.

Mayor Shebetka opened the public hearing to consider amending Chapter 165.28 of the Springville Code of Ordinances pertaining to Board of Adjustment terms at 6:37 p.m. No comments in favor or against the proposed changes. Andersen made a motion to close the public hearing at 6:39 p.m., second from Barner. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None. Motion carried. Discussion held on contacting the current board. Andersen presented first reading of Ordinance 4-2020, an Ordinance to amend Chapter 165.28 of the Springville Code of Ordinances, second from Barner. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None.

Mayor Shebetka opened the public hearing to consider setting FY21 water/sewer rates at 6:46 p.m. No comments in favor or against the proposed changes. Merritt made a motion to close the public hearing at 6:47 p.m., second from Grimley. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None. Motion carried. Grimley presented first reading of Ordinance 5-2020, an Ordinance to set the water/sewer rates for FY21, second from Blakely. RCV: AYES: Merritt, Barner, Grimley, Andersen, and Blakely. NAYS: None.

Discussion held to add fire department to the City credit card. Ketelsen spoke on behalf of the fire department. They are not looking for their own card, but just access to one to order supplies online if an account is not available. Clerk will bring updated credit card policy to council for approval.

Mayor Shebetka presented Patrick Hoyt, Jr. for the Fire Chief for a 3-year term. Grimley made a motion to approve Patrick

Hoyt, Jr. as Fire Chief, second from Blakely. All ayes. Motion carried. Clerk will swear Hoyt in.

Linn County Sheriff's report presented via email. There were 17 calls for service between 3/16/2020-4/6/2020.

No report from public works report.

Ketelsen presented fire department report.

Wagaman presented clerk/treasurer report.

Mayor expressed concern with upcoming budget with the COVID-19 situation. Unsure if LOST funds and Road Use Tax money will be decreased.

Grimley wanted to remind everyone to make sure to fill out your census. Clerk's office will get more information/reminders out.

The next regular council meeting will be April 20, 2020 at 6:00 p.m. at City Hall.

There being no further discussion, Andersen moved to adjourn at 7:07 p.m., second from Blakely. All ayes. Motion carried.

Regular Council Meeting

April 20, 2020

The Springville City Council met in regular session April 20, 2020. In order to help stop the spread of the COVID-19 virus, this meeting of the Springville City Council was held electronically. Chapter 21.8 of the Iowa Code does permit an electronic meeting where all members participate remotely when an in-person meeting is impossible or impractical, which is certainly true during this crisis. On March 19, 2020, Governor Reynolds issued a Proclamation of Disaster Emergency, which included a suspension of Iowa laws that would prevent the use of electronic meetings or the limitation on the number of people present at an in-person meeting site. The agenda had this message posted more than 24 hours in advance to give instructions on how others could participate in the meeting: *Due to the COVID-19 crisis, the City of Springville will be holding this City Council meeting electronically via a conference call. If you would like to participate in the meeting, please call (425)-436-6369 and enter this access code: 331423. Only City staff are allowed in City hall.*

Mayor Shebetka called the meeting to order at 6:01 p.m. Council members present: Brad Merritt, Bart Barner, Lyle Andersen, and Karla Blakely. Jeff Grimley was absent. City staff present: Public Works Director Todd Wyman and City Clerk/Treasurer Dee Wagaman. Guests present: Ryan Hosch and Jim Holz of MSA, and Treva Davis.

Andersen made a motion to approve the agenda, second from Blakely. All ayes. Motion carried.

Andersen made a motion to approve the following consent agenda items: Approval of April 6, 2020 minutes and approval of bills, second from Barner. All ayes. Motion carried.

Mayor Shebetka invited citizens with input to speak. There being no comments from citizens, Mayor Shebetka moved to business.

Holz of MSA presented the joint housing study to council. Presented all the sources that would be available to the City. Springville's cost would be \$5,000. Blakely made a motion to have MSA submit grant requests, second from Andersen. All ayes. Motion carried.

There was a wording issue in proposed Ordinance 2-2020, clerk will make corrections and start the process over.

Andersen presented second reading of Ordinance 4-2020, an Ordinance to amend Chapter 165.28 of the Springville Code of Ordinances, second from Blakely. RCV: AYES: Blakely, Merritt, Barner, and Andersen. NAYS: None.

Andersen presented second reading of Ordinance 5-2020, an Ordinance to set the water/sewer rates for FY21, second from Barner. RCV: AYES: Blakely, Merritt, Barner, and Andersen. NAYS: None.
